

# ONE DAY WORKSHOP ON ANALYSIS OF CENSUS DATA

## A Beginner Workshop using CSpro

Organised by

Population Research Centre, Gauhati University

### *About the programme*

This workshop is designed to equip participants with the skills and knowledge needed to utilize micro-data from the census. The aim of this workshop is to enable participants to conduct in-depth research, generate unpublished cross-tabulations, and extract valuable insights beyond publicly available aggregate data. Through hands-on training sessions, participants will learn how to navigate and analyze confidential datasets while adhering to strict confidentiality protocols. The workshop also focuses on fostering inclusive access to census data for individuals across diverse backgrounds. By the end of this training, participants will be able to apply advanced analytical techniques, contribute to data-driven decision-making, and play a pivotal role in refining census data.

### *Who can join?*

Any faculty/ Research Scholars of a recognized university/college/research institutions can join this programme.

N.B. No TA/ DA will be provided for the participants.

### *How to apply*

The interested candidate can apply to this workshop by filling up the registration form on or before 6<sup>th</sup>, January, 2025. Link for Registration:

<https://forms.gle/j5M1Sf6Vbd1My7F49>
