### 1.4 - Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	No
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

#### Feedback Obtained

ActiontobeTaken: Feedback from all the stakeholders is received by the IQAC Task Force, maintaining strict confidentiality and using customized Google services, in a continuous manner. While details about the tools used in the process may be found in the weblink provided, here we discuss on the Action Plan. As derived from the compiled and analyzed feedback received over last five (05) years, the following timebound steps are approved by the Honble Vice Chancellor, GU, and proposed to be implemented by Dec 30, 2019: I. Administration (Registrar): (i) Declaration of Plastic and noise/hornfree campus (using signboards, serving notices to all the shops in the market area, hostels, Departments) (ii) Installation of Suggestion Boxes (50 in total) (iii) Wellmarked Zebracrossing for pedestrian at Traffic Points, marking of the Speedbreakers with glow markers, Cycle route etc. (iv) Cycle Stands (at least 2, one each at the main gate and new Arts Building entrance), and marked Cycle Lane on the stretch of main street (v) Installation of CCTV (vi) More efficiency in overall administrative delivery through implementation of ERP (vii) More efficient web resources. II. Academic Departments (HoDs): (i) To form Task Forces involving alumni (list of volunteers to be supplied by IQAC

from the feedback received) particularly to a) mentor the existing students b) help in training and placement, and c) mobilize resources for the Department (ii) To use the Suggestion Box to encourage all the stakeholders to respond in making the Department a vibrant centre of teachinglearning (iii) To revise / restructure the coursecurriculum periodically so that the skill gap of the students is minimum and they are ready for placement Page 2 of 2 (iv) To encourage interdisciplinary and/or multidisciplinary research collaboration (v) To find mechanism for robust teacherstudent interactions, may be in the form of an efficient mentormentee system (vi) To formulate and implement Employment Enhancement Mechanism, focusing on the requirements of the students, in the form of specialized coaching, Elective Courses in the existing curriculum to facilitate better performance in NET/GATE/JEST/JAM etc., and involving selected and competent alumni as experts / mentors (vii) To hold at least one (01) meeting with the parents / guardians in a semester. III. Academic Registrar: (i) More frequent meetings of College representatives to discuss about their academic requirements, and consider their views on policy decisions having impact on the Colleges (ii) More emphasis on curriculum formulation / revision for incorporating income generating skill development programmes (iii) Collegeteacher friendly ecosystem for facilitating better research environment in the affiliated colleges. IV. Secretary University Classes: (i) Better execution of online registrationadmission process as well as overall coordination (ii) Better infrastructure for food and other facilities in the hostels, such as, WiFi, waste disposal plants, cycle stands, common room / recreation hall etc. (iii) ERP implementation, completing at least few more student modules by Dec 15. V. Controller of Examination: (i) To enhance online features in connection with examinations and certificates / gradesheets through ERP (ii) To formulate mechanism for more efficient collaboration with the Colleges.

#### 2.3.2 - Students mentoring system available in the institution? Give details. (maximum 500 words)

The Gauhati University has a student mentoring system which is operationalized in individual academic departments offering various programmes of study. The modalities of the system is worked out and implemented by the departments keeping in mind the available resources and needs in each department. The departments have adopted two main ways for grouping the students for mentoring - grouping students statistically on the basis of teacherstudent ratio, and grouping after identifying slow/weak learners. One department (English) even has a threetier mentoring system: Teacherstudent mentormentee system in each semester, JRF mentors for 3rd and 4th semester students, 3rd and 4th Semester students as mentors for the 1st and 2nd Semester students, which attempts to ensure the active involvement of the whole academic staff in the Department. The Departments use the mentoring system for providing various kinds of support to the students. Some objectives of the mentoring sessions include providing guidance to students on academic and personal matters fostering a close and constructive relationship between teachers and students providing career counselling offering remedial coaching providing guidance on projects (dissertation) encouraging maintenance of regular class attendance providing guidance on administrative process providing support in practicing good health, hygiene and cleanliness increasing awareness about gender sensitive practices monitoring progression in studies and giving suggestions guiding on academic resources providing guidance on participation in various cultural and literary and other activities in or outside the university helping students to adapt to new environment and academic

schedule, to understand the needs of the curriculum developing healthy interpersonal relationship. Depending on their priorities and needs, mentors in each department attempt to provide support to mentees on one or more areas listed above. Practices like peer mentoring, developmental mentoring, special support to female mentees available in certain departments also reflect the effort of the institution to be inclusive in its support. The departments have attempted to ensure regular contacts and easy access between the mentors and mentees. Mentoring sessions are conducted regularly and at both group and individual levels. For each batch of students, mentoring begins in the first semester itself and it is observed that mentoring helps relieve the anxiety of the freshly admitted students in the new environment. Though the frequency of the sessions varies from department to department, they are usually conducted on a regular basis. In order to facilitate easier and regular interaction, some departments (like Mass Communication, Computer Science, etc) have also taken help of media like whatsapp. In such departments, each mentor has created a Whatsapp group with their mentees. Such regular contacts and easy access are believed to motivate the mentees to work on their personal and academic growth.

To sum up, the system of mentoring in Gauhati University has been implemented by various academic departments to support students in various ways that has fostered a closer and constructive association between the teachers and students of the institution.

The Student Council of Gauhati University is known as PostGraduate Student's Union (PGSU). It has been functioned since the inception of the University in accordance with its constitution. There are 15 Office Bearers in its Executive Body and one Departmental Representative from each department directly elected by the students by voting as per the existing recommendation of the Lyndgoh Committee and as mandated by the Hon'ble Supreme Court of India. The office bears are: President, VicePresident, General Secretary, Assistant General Secretary, Literary Secretary, Music Secretary, Cultural Secretary, Debate Symposia Secretary, Major Games Secretary, Minor Games Secretary, Sports Secretary, Boys Common Room Secretary, Girls Common Room Secretary, Gymnasium Secretary and Social Service Secretary. The student council i.e., PGSU elected for one year, takes care of all the issues of the students and brings it to notice of the University Authority as and when required. They act as a suggestive body to put forward necessary suggestions and recommendations to be taken up and executed for the welfare of the students. Moreover, they organises

different sports, cultural and academic activities for the all round development of the students. They also organises welfare programmes like plantation, campus cleaning, blood donation camp and some awareness programmes to cub ragging, use of drugs and for proper use of social media. Apart from organising different competitions in the fields of cocurricular and extracurricular activities. In the times natural disaster, they come forward for helping the victims. The representative of PGSU and other students are nominated /elected to different academic and administrative bodies of the University. For example, the student body is a constituency in the election to the Gauhati University Court. They are also represented in important committees like AntiRagging Committee (one senior student and one junior student), Internal Complaints Committee (ICC), Grievance Redressal Committee for admissions, Town Committee, Security advisory Committee, etc. Moreover, one Prefect in each hostel is officially appointed by the administration for immediate intervention in the problems faced by the students in the hostels. The PGSU is also represented in the Sports' Board of the University which looks after all the sports activities organised for the students. On the other hand, student members are also included and well represented in all important nonstatutory bodies/committees like the organising committee for convocation, stakeholders meeting etc. By and large, the students are involved in most of the important bodies of the University on representational basis where the issues of the students are discussed and decided.

#### 5.4 – Alumni Engagement

### CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

# 6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

As recommended in the post NAAC accreditation meeting with the Heads of the Academic Departments, it was decided to form Department Quality Assurance Cell by the ViceChancellor vide letter No. GU/IQAC/28/2018/257 dated 6/11/18. All the Departments were notified on 14th November 2018 to form a committee comprising of the Head of the Department as the Chairperson of the DQAC, one senior faculty of the DAC as a member and one faculty of the Department with experience in working with basic ICT tools. The DQAC has been working to make the data collection system decentralized, regular and ongoing since a major component of data for the AQAR comes from the Academic Departments. The DQAC is also entrusted to sensitize the departmental faculty on quality publication, teachinglearning and monitor the feedback process. The IQAC in its attempt to make the Quality assurance process participative has set up a task force comprising of faculty members of various departments. The objective is to create awareness about the quality assurance requirements in the University as well as design methodologies for achieving quality in the various aspects of teachinglearning, research, development and community outreach programmes. The task force is responsible for achieving and ensuring quality. In this regard faculty level committee are proposed to be formed as the quality control protocol. The taskforce would eventually be responsible for monitoring the quality of the publications of the Departments and do SWOC analysis relating to each metric for a future course of action. One of the first activities of the task force was to prepare the AQAR of the year 20182019. The structure of the task force is as follows: Director, IQAC is the Chairman. A team has been formed to look into different aspects of each of the 7 criteria of AQAR. The format for collecting data from Academic and Administrative departments were designed and shared on google sheets. The duty of the task force was to compile the data, identify gaps and collect the necessary information.

For employability/entrepreneurship and skill development, some departments have started soft skill course and course on computer knowledge and its application in respective filed/subject for the students. For example, English department has started courses on Film Studies, Translation Studies and Principles of Translation, Business Communication and English Communication

Teaching and Learning	In addition to the continuous evaluation process through various exams (class tests, sessional and semester exams), Mentormentee system has been introduced in all the departments for master courses. Remedial courses are offered to the students if necessary. As per the new curriculum, master students should go for at least one CBCS open paper in their courses. Course work for the PhD students is mandatory. The Pre Examination Training Centre (PETC), GU also conducted various crash courses to enhance aptitude, vocabulary and reasoning for appearing competitive examinations. A training on statistical software for the Masters students was also conducted during the period.
Examination and Evaluation	Subjectwise entrance tests were conducted for admission to Masters, M.Phil and Ph.D. courses to select and promote meritorious students for higher education. As a good practice and quality maintenance, subject experts are called from nearby central/state universities and research institutions for practical examinations at masters' level, and PhD and MPhil theses are sent for evaluation to the subject experts outside the university in and abroad. GU has made six monthly progress evaluations compulsory to the PhD students that have to be presented to their respective threemembers Research Advisory Committee (RAC). Both MPhil and PhD thesis submissions are to be along with the antiplagiarism report. For promotion of Academic Integrity and Prevention of plagiarism in Gauhati University, the Institutional Academic Integrity Panel (IAIP) and the Departmental Academic Integrity Panel (DAIP) have been constituted.
Research and Development	The University has allocated budget for giving startup grants to the young faculties accordingly a total of 22 young faculties from different departments were given research grants during the period. The University has made mandatory to include expert's name in the award list of Ph.D students to make the Ph.D programme more professional and transparent. Moreover, during the period, University made compulsory to submit and present six

month progress report to the respective
Departmental Research Advisory
Committee (RAC) for all regular and
part time research scholars. Besides, a
central instrumentation facility is
being set up to enhance RD activity in
the university. A scanning electron
microscope was procured and installed
during the period. Logistic supports
and basic infrastructures are given to
the project investigators for
extramural project applications and
implementations.

Library, ICT and Physical Infrastructure / Instrumentation

To facilitate the scholars and the users to get access of the eresources available through INFLIBNET Centre's central funding and also the subscribed eresources from our own, a modern computer lab with about 70 computers with licensed software has been established in the New Annexed Building and connected with the central server of the university through Local Area Network (LAN). As an alternative source of energy, 75KW capacity Solar panel has been installed on the top of the New Annexed Building. The process of another 50KW solar panel installation is going on to cover the entire library. Institutional Repository by using DSpace, an openaccess software for the digital library, has been created through which digitized version of the resources available in the library can be accessed online in the LAN. The Library campus has been connected with the WiFi facilities to make available the internet and other eResources beyond the four walls of the building. Renovation works of the Reading Room have been completed during this period along with reelectrification of the room. Yoga centre and sports infrastructures (indoors and outdoors) are available within the campus.

Human Resource Management

GU has proper selection criteria for human resource recruitment, promotion for trainings and capacity buildings, involvement of young faculties in different activities, involvement of potential faculties in different administrative, academic and monitoring committees for quality assurance, reshuffling of administrative supporting staffs to make them well acquainted with different

	administrative departments and perform more efficiently. GU also hires experts from outside for knowledge exchange and overall quality improvement in the University.
Industry Interaction / Collaboration	In order to enhance industryacademia collaboration, facilitate startup, incubation activities and students' employability, GU has started an incubation centre by the name 'Gauhati University Technology Incubation Centre' since 27 August, 2018 which is certified by the Innovation Cell, MHRD, Govt. of India and AICTE
Admission of Students	Gauhati University (hence after GU) started a completely online and paperless admission process for its own campus and off campus master's programs (programs running in affiliated colleges) over the last year's partial online admission process where both online and offline were used. Besides conducting admission test within its own campus, for the first time GU conducts 12 of campus centres covering major districts head quarters of Assam and Northeast India. During the reference period, GU has made a special provision by opening its 50 seats to other Universities with the aim to increase the diversity in student's profile. Moreover, in interdisciplinary programmes, 100 seats were made open to students of all universities where admission were done exclusively on entrance test. This year GU has made mandatory for colleges to follow the same admission list prepared on the basis of the entrance test which nullifies independent admission processes of colleges. There is also an international relation cell of GU to facilitate the admission process of interested students in various courses under GU.

# 6.2.2 – Implementation of e-governance in areas of operations:

E-governace area	Details
Finance and Accounts	IUMS launched HRMS Payroll, Pension Management, PF Management, Store Purchase modules during the period.
Student Admission and Support	IUMS launched various modules (Pre Admission, Admission, Fee Management, Hostel Management, Convocation/Certificate Management, and Placement Services) for the students.

		Besides, access of free internet in GU hostels, in Central library and the respective academic departments, online access of eresources through INFLIBNET (UGC), and the access of Institutional repository through DSpace, an openaccess software for the digital library are available to the students.
Examina	tion	Pre Examination, Examination Processing, and Post Examination modules were launched by the IUMS during the period.
Planning and I	Development	GU already has a fifteenyear perspective plan (20162032) with clear development goals and timebound implementation strategies in which good governance with efficiency and transparency through technology intervention is one of them.  Accordingly, GU adopted IUMS (Integrated University Management System) since 2017 which provides both online and offline user friendly portals for egovernance. University has opened up DQAC in all departments and online submissions of information were made compulsory. Similarly, to enhance research quality University has created 'Research Ethics Committee' for the researchers. Online student's feedback mechanism has planned during the period and the collection of information has already been started.
Administ	ration	In addition to the previous modules,  IUMS launched a few more useful administrative modules: VC Admin, RTI module, File and Letter Movement, Establishment, Academic, Affiliation, Alumni Management, Employee Portal and Guest House Management module according to its planning for effective egovernance.

Conduct Green/Environmental Audit
Encouraging the bicycle Culture on the campus
Making the University a plastic free zone
Green garbage disposal system
Introduce digital communication methods to achieve paperless system
Brainstorming sessions on national Science day
Organise Swachh Bharat Abhiyan
Creation of a Natural Biodiversity Zone on the campus
Habitat conservation initiative

#### 7.2 - Best Practices

#### 7.2.1 - Describe at least two institutional best practices

Best Practice 1: Green Initiatives Gauhati University continues to focus on initiatives for maintaining and enhancing the greenery of its campus which is home to various animal and plant species. The green cover of the university includes small forest areas, marshy land and a beautiful botanical garden. The animals that inhabit the area include various reptiles, fish, amphibians, small mammals, and birds. The university campus, which is very close to the DeeporBeel Wild Life Sanctuary, a Ramsar site, and is adjacent to the Jalukbari Reserve Forest, is itself a biodiversity hotspot, and realizing the importance of maintaining the rich diversity of flora and fauna in such an area, the university has given maximum importance to green initiatives. Plantation drives undertaken by different departments and organizations have helped in maintaining the green cover of the campus. An aquaculture park within the campus contains various endemic species of fish, while many water bodies in the campus also give shelter to various aquatic creatures such as fish, amphibians, reptiles and insects. The botanical garden in the university has an interesting variety of plant species in it, while a fresh water body inside the garden enhances its beauty. Many bird species make the garden and the university their home. The waste management system in the university ensures proper disposal of waste from the hostels, residential quarters, and offices and departments. The hazardous waste materials from science laboratories are disposed off in a safe and responsible manner. The departments of Zoology, Botany, Biotechnology and Environmental Science are engaged in teaching and research activities that have a positive impact on the environment and the biodiversity of the region, while departments in the Faculty of Arts also have components in their teaching and research that promote environmental awareness and responsibility. Even as the University is undertaking construction and development projects, it is doing so

with care, so that the rich biodiversity of the area is not destroyed. Felling of trees is strictly prohibited, and adequate plantation is done around new buildings. Biomass burning is prohibited inside the campus, which is also a nosmoking area. Attempts are on to make the university plasticfree, and many departments have strict rules against the use of singleuse plastic. Official notices and letters are sent through email with a view to make communication as paperless as possible. Organizations like the Gauhati University Teachers' Association also functions in a paperless manner, maintaining their communications through email. The university actively participates in Swachh Bharat Abhiyan programmes to keep the environment clean and clutter free. Best Practice 2: Decentralization and Participatory Management Gauhati University, established in 1948 after concerted demands and efforts for having a university in this part of the country, endeavours to maintain its democratic character and meets the hopes and aspirations of the people of the region. One way in which the university has consistently maintained this character is through decentralization and participatory management. The functioning of the university at various levels is through a process that ensures everyone's participation and forestalls exclusion. The University follows a bottom up approach and most of the academic policies of the University are initiated at the lowest level academic units like Departmental Academic Committee (DAC), Departmental Research Committee (DRC) and the Committee of Courses (CCS). The decisions of these bodies are than ratified by the Faculties and finally by the Academic Council. Again, the University Court is the supreme body of the University comprises of representation of all quarters, including the Heads of Departments, students, alumni and other stakeholders. Similarly, the Executive Council has representatives from the Gauhati University Court, the State Government, the Academic Council and other stakeholders. True to its nature of being a people's university, Gauhati University ensures that all stakeholders have a say in the functioning and wellbeing of the institution. In keeping with this general philosophy and practice of decentralization and participatory management, the Internal Quality Assurance Cell (IQAC) of Gauhati University has ensured that its own functioning is democratic and supportive of everyone's participation. Gauahti University now has Departmental Quality Assurance Cells or DQACs taking care of quality assurance and record keeping tasks within the different departments. The IQAC also has seven different Task Forces to deal with the seven criteria of assessment. The members of the task force are drawn from different departments and belong to different levels of seniority. Thus the University in general and the IQAC in particular, function with a bottom up approach rather than a top heavy approach. Also, there is an effort at replacing older top heavy setups with newer, bottom up structures. A host of organizations of teachers, students and employees also function within the university, presenting different perspectives on matters relating to the activities of the university. Considered in totality, all these entities also

#### 7.3 - Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The oldest university in North East India, Gauhati University was established immediately after Independence with an overwhelming sense of expectation from the society of the region. The University has lived up to that expectation by embracing programmes, courses, activities and research that serve the region in different ways. The University's location in a region which is remarkable for

its very rich ethnic, sociocultural, and linguistic variety, besides being famous for its biodiversity, is manifested in studies and research that takes account of both human and biodiversity. The University's response to its location in many of its teaching and research initiatives is distinctive to its vision of transformation and development. This finds expression in the works of different departments. Each of the 45 academic departments is unique in their own way by engaging itself in teaching and research in the areas reflecting its distinct identity. Among the humanities and languages, departments of Folklore Research and Assamese are the flagship departments. The department of Folklore Research is engaged in research, documentation and preservation of the rich cultural heritage and diversity of Assam as well as the Northeast. The Department of Assamese incorporates into its teaching and research programmes various aspects of the sociocultural ethos of different ethnic groups of the region. There are other language departments like English, MIL Literary Studies, Hindi, Bengali, Persian, Arabic, Foreign Languages, which play significant role in the study languages, literature and culture. The Department of Linguistics has been in the forefront of pioneering research in the languages of the northeast. The humanities and social science departments like History, Philosophy, Education, Psychology, Political Science and economics have been playing leading role in teaching and research distinct to the region. The relatively new academic departments like Sociology and Women studies have their distinct identity in the whole northeast. The science departments like Physics, Chemistry, Botany, Zoology, Biotechnology, Computer Science, Mathematics, Statistics and others have been conducting pioneering research in the areas specific to the region. Department of IT prepared a digital archive of Dr Bhupen Hazarika's songs in Unicode format and has been working towards including Assamese script in ISO 10646 to BIS, Government of India. The Department has also been working towards the digitalization and exploration of other ethnic languages of Assam. The programme and courses of the department of Environmental Science reflects institution's distinctiveness through topics on natural hazards in general and the natural hazards of Northeast India (especially seismic and flood hazards). The Departments of Geography, Geological Science and Anthropology have been leading their disciplines with pioneering research and innovative teaching. The Department of Botany has been working in the direction of inventorization and mapping of plant resources of North East India in general and Assam in particular, and conservation of rare, endangered and threatened plant species through insitu and exsitu processes, and exploration and exploitation of microbial resources for bioprospection. The Centre for South Asian Studies, Gauhati University has been established as a research hub as follow up of India's Act East Policy.

### 8. Future Plans of Actions for Next Academic Year

For the next academic year 2019 2020, the University has chalked out the following plan of action: 1. In order to increase the residential facilities for teaching and nonteaching staff on the campus, the University plans to construct new residential multistory apartments for teaching and nonteaching staffs. 2. In order to increase residential facilities for students, the University plans to construct new hostels for girls and international students. 3. To facilitate recreation facilities of the faculty members, the University proposes to open a new teachers' club. 4. To preserve the biodiversity on the campus, the University decided to develop new wetland converting some marshy lands and evolve sustainable strategy to preserve the existing wetlands. 5. The University plans to evolve strategic plan to generate more alternative energy through solar power and increase the solar energy ratio up to 25. 6. The Department of Disability Studies has planned to introduce special skill development programme for the

differentlyabled persons. 7. University's integrated management system shall have new module to introduce atomization in the administration. 8. The University shall evolve new strategy to minimize the time gap between the last day of the examinations and declaration of results. 9. The Academic and Administrative audit shall be done on priority basis. 10. Special effort shall be given to strengthen the Gauhati University Alumni Association and increase Alumni engagement in the University activities. 11. The Gauhati University proposes to introduce a new scheme "Gauhati University Research Fellowship" in order to offer financial assistance to the needy and deserving research scholars. 12. The University plans to implement a system of compulsory review of the syllabus and curriculum of various programme after every three years and take measures to revise/update the syllabi and curriculum. 13. As a part of the green initiative, the University plans to achieve 100 percent paperless communication system with academic departments and receive/send communications, notices only through electronic media. 14. During the next academic year, the University plans to increase the ICT enabled capacity in teaching learning process and also create new econtent development facilities. 15. The University plans to organize regular capacity building workshop/training programme for the nonteaching staff of the University. 16. The University plans to take special measures to fill up the existing vacant teaching positions. 17. The IQAC shall ensure regular meetings of the statutory body, the DQAC and the IQAC Task Forces. 18. University plans to Install mini incinerators in the girls hostels. 19. Endeavour to establish linkage with national and international organizations/agencies for research collaboration. 20.
