Meeting of the CCS-VG held on 23-03-2023 from 11:00 am in the Conference room of the Dept. of Women's Studies.

The Chairperson welcomed all the members to the meeting and took up the agenda for discussion and finalization of the draft of the first three courses of the FYUG Programme in Gender and Women's Studies.

A detailed and thorough discussion on the contents of the 3 courses was done and were finalized and accepted by the CCS-VG.

The CCS-VG then discussed in details on the structure of the FYUG Programme and chalked out a draft of the names of the courses and their sequence. It was decided that the sequencing of the courses should be done based on their level of difficulty. In other words, the principle of sequence should be from easy to hard/difficult courses. The members also brainstormed on the contents of the courses and responsibility of framing the courses were assigned to the members.

The meeting ended with the Chairperson's concluding remarks and her vote of thanks for the commitment of the members of the CCS-VG.

Meeting of the CCS-UG held on 15-03-2023 at 18-15 in the Google Meet Platform.

The chairperson welcomed all the members to the first meeting of the CCS-UG. She informed the members that the CCS-UG needs to discuss and decide on the feasibility of introducing the discipline of Women's Studies at the Under-graduate level in the affiliated colleges of Gauhati University. After a threadbare discussion on the problems and prospects the members decided to consider the following:

(1) CCS-UG unanimously resolved to accept the nomenclature of the Four Year Under-graduate Programme (FYUGP) under NEP 2020 as B.A. in Gender and Women's Studies as recommended by the DAC in its meeting held on 14/03/2023.

(2) To frame a syllabus for the discipline to be introduced at the Under-graduate level ^{in both} off-campus i.e. in the affiliated colleges and in-campus i.e. within Gauhati University campus.

(3) The guidelines of the syllabus were also decided as follows:
The syllabus must be framed in conformity to the Vision & Mission of Gauhati University and the Department. It should be based on OBE, Bloom's Taxonomy, Graduate Attributes, SDG, NET syllabus.
It should be contextualised in India and North-East India.

Meeting of the CCS-UG held on 17-03-2023 at 18:15
in the Google Meet Platform.

The Head of the Department and the Chairperson, CCS-UG
of the Department welcomed all the members and took
up the agenda for discussion regarding preparation of the
draft B.A. Syllabus.

The meeting decided to draft the syllabus for the first
six semesters ^{only}. Considering the paucity of time allotted,
It was also decided that the difficulty level ^{of the courses} should be
gradually increased in the latter semesters of the programme.

The CCS-UG agreed upon the title of the 1st three
courses and discussed on its contents one by one. It
also assigned responsibility to its members to draft the
syllabus for the 1st three courses as follows :-

Semester I	Understanding Gender	Dr Poonam Kakoti Borah
Semester II	Gender Issues I	Prof Alpana Borgohain Dr Ira Das
Semester III	Gender Issues II	Prof Alpana Borgohain, Dr Sunita Agarmull, Kunjalesa Borah Borah, Dr Sabrina ^{Saha} Sircar

The first drafts are to be placed in the next
meeting scheduled on 23-03-2023

Meeting of the CCS-UG held on 24-03-2023 at 10:00 am on Google Meet Platform.

Special Invitee, Prof (Retd) Swarnalata Das, Dept of Education, Gauhati University suggested ^{that} the Course Quantitative and Qualitative Research should be introductory in nature and that ^{when} the Eight Semester ~~are~~ ^{higher level} ~~introduce~~ courses are designed another ^{higher level} course on Research Methodology should be incorporated. She also suggested that this Course should also include Feminist Research.

The above suggestions were accepted by the CCS-UG.

The contents of the courses were also discussed and a rough draft was formulated. The CCS-UG unanimously resolved that final drafts ^{of the courses} prepared by the assigned members will be sent for review ^{by the Chairperson, CCS-UG} through mail to Dr Sudeshna Mukherjee, Prof (Retd) Vibhuti Patel, Prof (Retd) Archana Sharma and Prof (Retd) Swarnalata Das and suggestions if required will be incorporated.

The meeting ended with the concluding remarks and the Vote of thanks from the Chairperson to all members for their commitment ^{and} co-operation.

Meeting of the CCS-UG held on 24-03-2023 at 10:00 am on Google Meet Platform.

The Head of the Department and the Chairperson, CCS-UG of the Department welcomed all the members and placed the agenda to finalise the ^{names and sequence of the} courses of the FYUG programme the first listing of which was done on 23-03-2023.

The members thoroughly discussed and put forward their vital inputs. External expert member Dr. Sudeshna Mukherjee, Dept of Sociology, Bangalore University suggested that Women's Movement should be included as a part of the core course on Introduction to Women's and Gender studies.

Special Invitee, Prof (Retd) Anichana Sharma, Economics Dept, Gauhati University ^{suggested} that an ^{Elective} course on Women, Science and Technology should be included in the fourth semester that can attract students from the Science stream.

Special Invitee, Prof (Retd) Vibhuti Patel, SNDT University and TISS, Mumbai suggested that the course Gender, Environment and Sustainability should also include Climate Change as its thrust area. She also suggested that the Sixth Semester course Feminist Legacies can be renamed as Feminist Traditions in India.

Sub. Information regarding changes in Syllabus:

Sir,

With reference to the subject cited above, I would like to bring to your kind notice the following for necessary action at your end:

The original Course no. PHI 1046 (core) Phenomenology and Existentialism has been replaced by the original course PHI 2036 (core) Analytic Philosophy. Similarly, the original course PHI 2036 (core) Analytic Philosophy is replaced by original course PHI 1046 (core) Phenomenology and Existentialism. This change will be effective from the batch admitted into the first semester in the year 2018 only. As such the syllabus will be of the following structure:

PHI 1016: (core) Theory of Knowledge (Indian)	Marks 80 + 20
PHI 1026: (core) Theory of Knowledge (Western)	Marks 80 + 20
PHI 1036: (core) Logic - I	Marks 80 + 20
PHI 1046: (core) Analytic Philosophy	Marks 80 + 20
PHI 1054: (Value added) Practical Ethics	

However, students of the earlier batch, (2017-19) who want to re-appear in 1046 will answer questions pertaining to the original 1046, viz. Phenomenology and Existentialism.

Hope, you will kindly do the necessary arrangement in this regard.

Thanking you,
Yours sincerely,

Resolution 1: Dates of M.Sc 2nd - 4th sem exam, 2018 are finalized.

② Total Marks for 4th Sem Project = 200
Distribution

of
Marks : External = 120

Internal = 80

③ The final version of the syllabus was approved, with inclusion of modification suggested by the committee.

The optional paper on food-chemistry in the third semester may be removed from the list of optional papers for 3rd semester from the session 2018-2020. In lieu of this a new paper may be framed of similar type as open elective to be offered to the students of other departments.

④ The PGCCS endorsed the ^{following} decision of the syllabus committee taken on 16th March, 2018, on the change of credits to theory papers and project works in 4th sem.

Decision: " It was resolved that the course content for 4th sem should be rationalized with immediate effect, wherein each course assigned 4 credits (against the current assignment of 3 credits). Accordingly the project work will be assigned 12 credits from the current session "

Resolution No 1: The tentative programme for M Sc 1st and 3rd semester examination, 2018 is approved as detailed below. This will be forwarded to Controller of Examinations, Gauhati University for necessary actions.

M Sc 1st Semester Examination, 2018:

Theory : December 10, 12, 14, 18, 20 and 22.

Practical: December 4, 5, 6.

M Sc 3rd Semester Examination, 2018:

Theory : November, 27, 29, December 1, 3, 5, 7.

Practical: For B Baruah College, Nowgong College, Arya Vidyapith College, Handique Girls College, and

B N College : January 17, 18, 19.

For GU PG Class : January 21, 22, 23.

For Kokrajhar Collge (to be held at GU): January 29, 30, 31.

Resolution No 2: It is resolved that from the session 2018-2020, the elective paper "Food Chemistry" offered in the third semester will be withdrawn.

It is further resolved that a new elective paper may be introduced in the 3rd semester, if syllabus is proposed for such a course and it receives statutory approval. Colleges offering the PG course are encouraged to submit proposal for consideration.

Resolution No 3: Prof A K Talukdar entrusted with the responsibility of preparing a syllabus for a course in chemistry to be offered to the students of other discipline in the 3rd semester, was requested to present the syllabus in the next PGCCS-meeting for discussion and approval.

Resolution No 4: Resolved that the invigilation in the theory examinations be strengthened as many paper examiners have reported glaring similarities in the answer scripts of students having adjacent roll no, implying copying in the examination.

Resolution No 5: Resolved that clarifications be obtained from the controller of examinations about the remunerations to be paid to external examiners for practical examination and evaluation of project dissertation.

Resolution No 2:

The P.G. CCS expressed grave concern at the higher marks scored by the P.G. students at Tezpur University, NITs of region, due to relative grading of the evaluation system. This has ~~been~~ deprived acted to the disadvantage of the P.G. students of A.U., evaluated under the system of absolute grading, for which they fail to compete with students evaluated under relative grading system in the interviews for college teachers.

The P.G. CCS in chemistry requests the Controller of Examinations, A.U. to look into the matter and take the necessary steps for moving into the relative grading system from the session 2019-2020.

Resolution No 3:

The HODs of the P.G. department in chemistry of the colleges are requested to

- i) identify the topics in M.Sc syllabus, which are repetition of topics in a recently introduced CBCS syllabus.
- ii) identify the topics in M.Sc syllabus which find places in the course content of more than one semester.

These observations will be used to partially revise the syllabus, when the first batch BSc students under CBCS system becomes eligible for admission into the MSc.

Resolution 1: Proceeding of the last CCS meeting held on 20/07/2021 be confirmed.

Agenda 1: Revision of UG Botany Syllabus.

Resolution 2: The CCS UG Botany Committee convened on 05/05/2022 to address the imperative need for comprehensive revisions to the existing Undergraduate Botany Syllabus.

Recognizing the dynamic nature of the field of Botany and the evolving educational landscape, the CCS-UG Botany Committee engaged in extensive deliberations and discussions to formulate a resolution for the

f.T.O.

revision of US Botany syllabus. Key considerations included:

- (a) Review of Current Syllabus
- (b) Alignment with Academic Standards
- (c) Integration of Contemporary Concepts &
- (d) Enhancement of practical components

After thorough deliberations and consideration of all relevant factors, the CCS US Botany Committee resolved to initiate the process of revising the US Botany Syllabus.

The committee appointed a subcommittee comprising subject matter experts and faculty members to oversee the revision process and provide regular updates.

Resolution-1: Proceeding of the last CCS-UG meeting held on 11/01/2023 be confirmed.

Agenda-1: Structure and prepare the FYUG-NEP-2020 syllabus.

Resolution-2: The CCS-UG Botany committee convened on 24/03/2023 to deliberate on the structure and prepare of the Undergraduate Botany syllabus, designed to align with the principles and objectives outlined in the National Education Policy (NEP) of 2020.

During the meeting, members of the CCS-UG-Botany committee engaged in collaborative discussions and consultations to frame a syllabus that would effectively integrate the mandates and recommendations of NEP 2020 into the Undergraduate Botany curriculum.

Following meticulous deliberation and consideration of all relevant factors, the CCS-UG-Botany Committee unanimously structured and prepared the FYUG-NEP (2020) syllabus, and unanimously resolved to approve the framed syllabus, recognizing its alignment with the overarching vision and principles delineated in NEP, 2020.

MUNITES OF THE MEETING OF UGCCS FOR ECONOMICS
Held in the Department of Economics, GU on 25.05.18

The meeting was initiated by the Convener of UGCC for Economics and attended by all the Committee Members and four of the five special invitees. Given the importance of the prime agenda, viz, Syllabus of Economics for CBCS at Under-graduate level, it was felt that the process of syllabus revision is carried forward with wider consultation process going beyond the existing UGCCS members. Accordingly the special invitees have been inducted into the process. One special invitee (Md. M R Kazi, Mankachar College) could not attend the meeting as he was not given leave from NRC duty.

1. The meeting first took up the issue of the requirement stated by UGC that only students having done Mathematics as one of the subjects at +2 level will be eligible for taking honors course in Economics. The members expressed the apprehension that if this requirement is insisted upon, enrolment for Economics (Major/Honors) would drastically fall. Several reasons were cited. First, students currently at +2 stage were not aware of this condition in when they joined the course. Hence many students aspiring to do Economics (Major) at the degree level may not have opted for Mathematics as one of their subjects. Imposition of the requirement of Mathematics would now deprive such students from pursuing Economics (Major). Secondly many Colleges and Higher Secondary Schools as of now do not offer Mathematics, Hence students in such institutions cannot possibly have had Mathematics as one of the subjects at +2 level.

In view of these concerns the meeting took the following resolutions

- 1.1 For the next few (4 to 5) years, Mathematics in H.S. level will not be a requirement for pursuing Economics (Honours/Major)
- 1.2 Colleges may however added weightage to student who have done Mathematics at +2 level while selecting students for Economics (Hounours/Major) course for admission to Degree 1st Semester
- 1.3 During the 1st and 2nd Semesters of Economics (Hounours/Major), tutorials should be geared towards strengthening the mathematical base especially those students who have not had much background in Mathematics.

2. The meeting discussed the syllabus downloaded from UGC website and allotted the work of moderating the course contents for adoption in GU Undergraduate CBCS course to different members and other as outline below.

Core Courses	Groups to Prepare
CEC 2 & CEC 4	Dr. Gayatri Goswami & Dr. Angana Barua
CEC 3	Prof. M.P. Bezbaruah & Dr. Jagadish Sarma

Group II (xii) Environmental Economics	Dr. Gayatri Goswami & Dr. Namita Das
Group II (xiii) International Economics	Dr. Amiya Sarma & Dr. Bidyut Baishya
Group II Economy of Assam (not in UGC List)	Prof M.P. Bezbaruah & Prof N.A. Barua

2.1 It was agreed that General Courses would be finalized by same group finalizing the honours courses of the corresponding courses

2.2 The paper on the Economy of Assam in the 6th Semester will be a compulsory course. This course will also include a term paper of 20 marks.

The term paper may be written on a topic of contemporary economic importance not necessarily related to the Economy of Assam. The topics for term paper may be given to students as soon as they complete their 5th Semester Examination, so that they can start gathering materials for the term paper in the semester break between the 5th and the 6th

Semester. The term paper would be based mostly on literature survey and can at most use some available secondary data. Primary data collection should be avoided. The format should be that of a feature article but with citation of references of works consulted in the text and listing of the same at the end of the write-up.

The term paper will be in lieu of Unit Test / Assignment etc. for internal evaluation on the course on the Economy of Assam. Accordingly the term paper will be evaluated internally in the college. But evaluation will be a two part process. The write-up should be evaluated out of 10 marks and presentation of the paper would carry 10 marks.

Subject to availability of facility power point presentation may be allowed. But such presentation should be limited to 5 to 10 slides. Further the slides should truly include points only and not the whole text. Reading out text from the slide show should be discouraged.

Term paper writing and presentation is aimed at equipping students with elementary paper writing and presentation skill.

3. It was agreed that teachers assigned the work of preparing the course would complete the work and send the matter by email to economics@gauhati.ac.in latest by the 10th of June 2018

4. For better geographical representation, it was proposed that the special invitees of the meeting would be co-opted to the UGCCS for Economics. The convener UGCCS-Economics should write to appropriate authority to approve the co-option

AGENDA:

1. Discussion on the UGC decision of making Mathematics compulsory for those taking major in Economics
2. Any other Business

To
The Registrar
Gauhati University
Guwahati

Subject: Decisions taken during the recent UG-CCS meeting regarding inclusion of Mathematics at the HS level for taking major in Economics

Dear Sir,

According to the 2019 syllabus for major in Economics, following the UGC guidelines, it was decided that given the quantitative requirements of the programme, "only students who have passed Mathematics at the Higher Secondary level are eligible for admissions to major in Economics". However, not to deprive students who were then at the Higher Secondary level without Mathematics as one of their subjects and who had been considering opting for the Economics (honours) course, this eligibility criterion would be in force only from "the third year of implementation of the syllabus". This was unanimously agreed upon in the meeting of the Undergraduate Committee of Courses and Studies in Economics of Gauhati University held on 25th May 2018.

Now as the three-year waiver is going to end, a request from the side of the colleges has come for reviewing the above resolution, especially in view of the fact that the New Education Policy (NEP) 2020 insists on "flexibility" in choice of course curriculum. The Department of Economics had a UG-CCS meeting on the 10th of August 2021 for a thorough discussion on the matter.

After a detailed discussion, the UG-CCS has taken the following decisions:

1. Another two years of waiver has been given to the colleges for admitting students to the major courses in Economics without Mathematics at the Higher Secondary level.
2. In the SE-ECO-4014: Data Analysis paper, the Unit I (ie, "Data Entry in softwares like MS-Excel, SPSS/PSPP") should be changed to "Data Entry in MS-Excel" with immediate effect.

Thanking you.

Per kind attention of ELT PG CCS: New MA (ELT) Programme to be launched from the academic session 2023-24

Dear Colleagues,

I am pleased to inform you that the Faculty of Arts, Gauhati University in its meeting held yesterday (30.05.2023) approved the launch of the new MA (ELT) programme to be offered by the Department of ELT from the academic session beginning August 2023. This MA is being offered by the Department of ELT individually, and the joint MA (LELT) programme that we had been offering jointly with the Department of Linguistics, will be discontinued from 2023.

Before sharing more details of the programme, I wanted to give new member colleagues a little history in the context of this new move.

As you would know, the Department of ELT has been running an interdisciplinary Master's programme with the Department of Linguistics, GU since 2001. Our programme was called MA (LELT) (Linguistics & ELT), to which we admitted students jointly and offered common courses in the first and second semesters. The MA then bifurcated, leading to separate MA degrees in Linguistics and ELT at the end of the fourth semester.

Over the last twenty years, the Department of ELT, which was under-resourced when the programme began, grew in faculty strength, and about three years ago, we began to discuss the possibility of offering our own MA programme. This was to enable the Master's programme to better reflect the new directions in which the discipline of ELT was growing. We also felt the need to offer more ELT-based courses in the first two semesters, which was, in the existing syllabus, "Linguistics-heavy".

However, since 2021, the University has been preoccupied with its plan to launch the new four-year UG degree programme (FYUGP) under NEP 2020 for its 300-plus affiliated colleges. We had to put our new MA plans on the backburner and wait for a better time to launch the new MA in ELT, primarily because we wanted it to align with a new BA (ELT) programme (which we had also hoped to launch from the 2023 session) .

The present administration has not allowed us to launch a BA (ELT) programme in colleges this year, but two weeks ago we were instructed to offer a new, separate MA from the coming session. Although we had been considering the possibility of a new Master's for a while, this instruction came with little warning, and has left us rushing to put together the complete programme structure and syllabi.

We have been working (frantically) in the last two weeks to design the syllabi of the new programme and have the programme approved by the relevant bodies so that it can be uploaded on the website before new admissions begin.

Under ordinary circumstances we would have shared the complete programme structure with the PG-CCS before presenting it at the Faculty of Arts and the Academic Council. However, as the last Faculty of Arts meeting for this session was held yesterday, we had no option but to present it there for ratification. Our complete syllabus is not yet ready, so we presented a two-page programme structure at the meeting yesterday, which I am attaching with this email for your reference.

I am also hoping to be able to share the complete syllabus with you all in a day or two for comments and suggestions. We will then have to convene an emergent PG-CCS meeting within a week to ratify the syllabus.

I am really sorry to rush you all like this, but I hope you will understand that we did it because we were eager to launch the new MA, and also because we do not want to face further roadblocks down the road.

I would be grateful if you could go through the programme structure (and the detailed syllabus which I will share with you shortly) and join us for an (online) meeting soon. We hope to present the new syllabus in the meeting and discuss the reasoning behind its structure. We look forward to the support and suggestions of all our esteemed PG-CCS members on our new MA (ELT) programme.

Thank you, and apologies for the long email.

Best wishes,

Padmini

Dear Padmini and Colleagues,

This is indeed a very good move! Congratulations to all the members of the Department of ELT/ELE!!

I will be available for the online meet. I have a couple of minor questions and some suggestions to make regarding the curriculum selection for the MA ELT programme. Please let me know if you would like me to send them as a document or we can discuss them at the meeting.

Warm wishes,
Lina

Dear Padmini,

PFA the MA ELT course structure file with my comments. Hope they are useful to you. A very well thought out curriculum! Congrats on this great move and getting approval to start this programme. 😊 I remember how hard it was to get the programme started at EFLU way back in 2016 -- I was reminded of those days of initial struggle but in the end it was all worth the effort and the push.

Warm wishes,
Lina

Thanks for sharing the outline of the syllabus, Padmini. My attending the online meeting will depend upon when it will be held.

A quick glance over the main objectives of the course I noticed the absence of one that would **directly indicate** that the post graduates of the department will become qualified to teach in schools and in higher education. Since the department has been dubbed as a "training" department we need to proactively say that we prepare teachers for the two levels. This will also be helpful, later, to fight battles for inclusion in SLET and NET.

If we want to keep the term "Outcomes" we need to use the language from the learners' point of view. Otherwise we switch it with the term "Objectives".

With all good wishes, for a new milestone in the history of the department.

Dear Padmini and colleagues from the Dept. of ELT,

All of you have put together a comprehensive syllabus of the programme with all the long course descriptions in place! This has involved a lot of work! It looks like a balanced curriculum and I am guessing that it will be a dynamic document that will get revised based on teacher experiences, reflections and learner feedback. All of you are good to go!! 😊 👍

A small suggestion: In the syllabus template, against each course perhaps you could include a one (or two) line statement about the scope of the course. That would make it like a summary syllabus that could go into your programme brochure.

Warm wishes,

Lina

**Minutes of the CCS Meeting for Undergraduate English Syllabi (BA Honours in English, BA Programme in English, and English/MIL) under CBCS
27 April 2018**

1. The CCS in principle adopted the minimum course curriculum for undergraduate courses under CBCS, while making some variations in it within the permissible limit.
2. It was proposed that, since 20-30 % variation is permissible in the syllabus, the order of the core papers be changed to one that starts with the papers on British literature (Paper numbers 4, 7-10 and 12 in the model structure for the Core Course) and then go on to the other papers.
3. Questions were raised as to the non-inclusion of Alternative English and whether all the elective papers are to be offered and their syllabi made.
4. It was proposed that the Discipline Specific Elective (DSE) on Autobiography could be renamed and reformulated as Women's Life Writing.
5. It was also proposed that a DSE on Writings from the North East be added to the list of DSEs in the model structure.
6. It was also proposed that the Core paper on 20th Century British literature should not end with the early 20th century; instead, it should accommodate British literature till the present, or at least the entire 20th century.
7. It was also decided that as far as possible, there should be no overlaps in the texts prescribed in the syllabi.
8. It was decided that the members of the CCS will forward their suggestions, objections and views to the Chairperson, CCS, and the Head, Department of English, through e-mail within 7 days of this meeting, after carefully going through the model structure provided by the UGC.
9. It was decided that a draft syllabus should be prepared by the 7th of May 2018, and Professor Anjali Daimari and Dr. Dolikajyoti Sharma will be in charge of preparing and finalising the draft.
10. It was suggested that the colleges should be informed of the adoption of the new syllabus well in advance.
11. It was also proposed that the Value Added Courses (VACs) under the CBCS could be prepared by the English Departments themselves in their respective colleges.

Resolution of Committee for revision of UG Course

1. All colleges affiliated to Gauhati University (hereinafter GU) to shift to Choice Based Credit System (CBCS) by the session starting 2018-19.

The CBCS should be adopted in the B.A., B.Com. and B.Sc. programmes of Gauhati University with effect from 2018-2019.

2. The basic structure, papers, elective papers should be followed, although it will not be mandatory on the part of colleges to offer all the elective papers in a given academic year.

The common minimum structure and syllabi suggested by UGC as Templates are to be accepted as the basis for developing the syllabi of the disciplines / courses to be covered under CBCS.

3. The CBCS to be implemented in GU affiliated colleges agree to follow common minimum curriculum and syllabi of the core papers and given by the UGC. The allowed deviation from the syllabi being 20 to 30 % at the maximum.

This is adopted from page 3 of 'Instructional-template': "All papers except core papers offer complete freedom to the Universities in designing and reviewing the syllabi and enable them to offer their own distinct flavor and maintain their unique character. These elective papers provide them with the opportunity to develop competencies of students in their areas of strength, expertise and specialization. Even in the core papers under the proposed guidelines 30% flexibility is proposed in adopting the syllabus as per the template advised by the UGC. It is pertinent to point out that as per the existing education policy different institutions and universities are required to maintain 70% equivalence in the syllabi and the same is being maintained under the proposed system of CBCS."

4. The CBCS to be implemented in GU affiliated colleges agree to follow the nomenclature used by the UGC such as discipline specific electives, generic electives, skill enhancement course etc.

5. A Coordination Committee for UG-CBCS GU should be constituted with a designated Coordinator. The GU authorities should do this on or before 30th April 2018.

6. All affiliating (affiliated) colleges of GU should have respective CBCS Coordinators who will liaise with the Coordinator/Coordination Committee, UG-CBCS GU.

7. A UG-CBCS Regulations will be prepared shortly.

8. The following timeline is suggested:

(i) All UG-CCS to submit syllabus to the Academic Registrar, GU by 31st May 2018

(ii) Faculty level approvals of syllabus's by 18th June 2018

(iii) Academic Council approval to UG-CBCS by 25th June 2018

(iv) Final syllabus to reach all colleges in softcopy & hardcopy on/before 30th June 2018.

Sir/Madam

The UGCBCS Regulations (as amended) and the syllabus submitted for undergraduate course (BA/B.Sc/B.Com/B.Voc/BBA/BCA) is approved in the Academic Council held on 8th November, 2019. You are, therefore, requested to edit the front page of the syllabus to insert a line as "**This is approved in the Academic Council held on 08.11.2019**" and the content, if any, as per the amended UGCBCS Regulations. The verification of paper code, paper name, credit allotted and marks are the most important point of the syllabus. After due verification kindly send 2 (two) hardcopies of the complete syllabus duly sealed & signed by the HoD (one to the Deputy Controller of Examinations and other to the Academic Registrar) on or before **18.12.2019**. You are also requested to verify the softcopy available in the website (www.gauhati.ac.in) and request to upload, if modification required, after sending the hardcopy of the syllabus.

This is issued with due approval of Hon'ble Vice-Chancellor dated 04.12.2019.

Esteemed Members of PG CCS

Greeting!

As you are one of the members of the Core Committee of Syllabus (CCS) for M.Sc. Physics course of GU, I would like to inform you that a meeting of the CCS has been invited on 31/12/2019 at 13:00 Hr at the conference room of the Department of Physics, GU to discuss and approve the proposed modified version of the physics syllabus of this university. The modified syllabus is attached herewith for your ready reference. The modifications are made mainly in three fronts –

- (i). Detail syllabi of a few papers of 3rd and 4th semesters are included.
- (ii). Credits of various papers are rearranged based on their contact hours/week.
- (iii). Paper numbers have been changed according to the total no. of credit of the papers.

I shall highly appreciate if you kindly make it convenient to attend the proposed CCS meeting and extend your valuable comments and suggestions on the modified version of the syllabus. In case of your inability, an email with your observations on the proposed syllabus will be highly appreciated.

Look forward to seeing you in the Department.

Kind Regards –

Minutes of UG CCS MEETING-PHYSICS

Discussion and Resolution of the UG CCS –Physics meeting held on 8/8/2020

1. 18 SEC papers have been offered in the new CBCS UG syllabus and College can select from these 18 SEC papers.

The Qualification for teaching these SEC papers:

Dr. Sakeel Zamal suggested for a reconsideration of the existing provision that the minimum qualification of Ph. D. is a must for the resource person teaching in SEC. He added that Assistant Professor should be an option for teaching SEC along with other mentioned Resource persons.

For example, in paper Video editing for Social Media, along with B.E. / B.Tech. /M.Sc. (computer science)/ BCA, Assistant Professor –Physics can also be an option as resource person.

Dr. Arunava suggested that the minimum qualification of the resource person for SEC must be reconsidered. The requirement of Ph. D. should be removed and rather knowledge and skill of the concerned teacher must be investigated by the HOD/Principal of the college before assigning the course.

Dr. Nandan N. Borthakur, Dr. S Chowdhury and Dr. Sanjeev Kalita have also supported this view on relaxation in qualification of Resource person of SEC.

All other members accepted the qualification as it is now.

The resolution taken on SEC syllabus is that it is accepted and approved by all the members as proposed with minor modification in qualification of the resource person. College can select from these 18 SEC papers.

2. Position of Mathematical Physics is in SEM I and III: Changing of position of Mathematical Physics II from SEM III to SEM II.

Everybody agreed that there should not be any change in the position and it will remain as suggested by UGC as core paper position cannot be changed.

Dr. Sanjeev Kalita suggested that Matrix should go in 1st Semester. But HOD, B Baruah college and Prof. B.Bhattacharjee, HOD, Dept. of Physics, GU replied as Matrix is required for Quantum Mechanics which is in 4th semester, its position should remain in 3rd semester.

All other members supported that there should not be any change in this regard.

Therefore the position of Mathematical Physics in SEM I and III and the position of Matrix in SEM III will remain as it is. This decision is approved by all the members of the CCS.

3. Electricity and Magnetism paper may not include the electronics part Network theorem or Kirchoff's law and include Maxwell's equation and wave propagation or Renaming of the paper as Introduction to Electromagnetism and Electrical Circuits

Comment from Dr. Sakeel Zamal: There is a paper on Maxwell's equation in sem VI so inclusion of Maxwell's equation is not required in this paper.

Comment from Dr. Manoj Singh: Network theorem or Kirchoff's law in Digital system and applications are basics and related to this paper.

The basic structure given by UGC should not be changed

So, everybody of CCS agreed and approved that there should not be any change in this paper.

4. Inclusion of Lagrangian in Classical Mechanics.

All the members of CCS agreed that basic level introduction of Lagrangian and Hamiltonian can be included in Classical Mechanics (Elective paper).

5. Shifting of theory of Radiation in the Therm. and Stat Mech. to Quantum Mechanics and enhancement of Stat. Mech.

Dr. Ranjit Chowdhury suggested that the syllabus is lengthy and can be reduced and to concentrate more on the framework of Statistical Mechanics.

Dr. Bimal Kr. Sharma suggested the clubbing of Unit II and III and changing of Nomenclature to Review of Thermodynamics and Quantum Theory of Radiation.

After Discussion on this topic resolution taken is:

Members of CCS agreed and approved that there can be slight reduction of syllabus but with less deviation. There will be no shifting of modules and nomenclature as the clubbing of Units and changing of nomenclature will change the format given by UGC.

6. Inclusion of Python and reduction of Practical part of Mathematical Physics

In Practical, along with C and C++, Python is added and it will be taught in all the SEM. This is accepted and approved by all the members of CCS.

On reduction of syllabus on Practical part of Mathematical Physics, Dr. Shubhankar Roy suggested that no more reduction can be done as maximum limit of 20% reduction suggested by UGC is made in the syllabus.

Decision on Practical part of Mathematical Physics is that it will remain same as it is now. This decision has been accepted and approved by all the members of CCS.

7. Parity of Marks and No. of lectures

Decisions is taken and approved by all the members that there will be statement in the syllabus itself that marks distribution in the question paper will be as per the lecture distribution.

8. Prof. Kalyanee Boruah suggested that in Elements of Modern Physics, there should be reduction of Quantum Mechanics and inclusion of Nuclear Physics.

Resolution taken by the members of CCS is that Changes suggested by Prof. K. Boruah is being considered and will be referred to the Committees of Quantum Mechanics and Elements of Modern Physics for final comments and suggestions in this regard.

**Resolution of PG CCS meeting.
January-July, 2020**

Event: Meeting of the Core Committee of Syllabus (CCS) for M.Sc Physics Course.

Date: 31/12/19. Time: 1.00 PM

Venue: Physics Conference Room (Upstairs)

Resolutions:

1. Nomenclature of the course codes for the elective papers in Fourth semester appearing as A1, A2, A3, A4, B1, B2 and B3 are to be changed to A5, A6, A7, A8, B4, B5 and B6.
2. The last line appearing as "A student from the parent department may alsoby the other departments." in section II (Programme Structure) (see Page 1) in the syllabus is to be amended in the following way: either the word parent is to be omitted, or the line can be rewritten as "The student may opt for".
3. The credit distribution for the course PHY4116 (Nano fabrication) has to be changed from 4(L)+1(T)+1(P) to 3(L)+1(T)+2(P) .
4. The credit distribution for the course PHY4106 (Atmospheric Physics) has to be changed from 4(L)+1(T)+1(P) to 5(L)+1(T)+0(P) .
5. Input from Prof. A Gohain Baruah is needed in terms of inclusion of new open course in fourth semester.
6. Only 20% of the syllabus can be changed and for this the approval of the Academic Registrar is not required (As informed by Prof. M P Bora, former HoD, Physics, GU)
7. The Convenor of the PG CCS (M.Sc Physics) has been offered the right to amend certain portion of / to include a new section in the core course, PHY1015: Quantum Mechanics-I.
8. It will be the responsibility of the repeater students to get themselves updated about the modified syllabus. On request from the repeaters, HoD may arrange extra classes for the updated portion of the syllabus.
9. The possibility of inclusion of the SWAYM courses in the open elective paper of fourth semester is to be explored. Dr Bunty Tiru alongwith Dr Bimal Sarma and Dr Subhankar Roy will look into this matter.
10. After thorough discussions and suggestions for above mentioned minor modifications, the CCS approves the syllabus and request the Chairman to take further steps in this regard.

Outline for Discussion for PG-CCS

Monday, 9th April, 2018

Prologue

During a brainstorming session with all faculty members and all the students MSc (Physics) during the month of January-February, 2018, the following consensus have emerged.

The students and the majority of the members of the faculty feel

- *the present model of MSc Physics syllabus is not working.*
- *that the syllabus is making them Jack of All Trades and Master of None.*
- *that there are unnecessary subjects (earlier special) which they are made to study even if they are not interested.*
- *that they are being introduced to lots of subjects but they do not have in-depth knowledge in any one.*
- *that the syllabus is helping them clear the CSIR-NET examination is a myth.*
- *that a syllabus should not be oriented ONLY toward the sole purpose of clearing the NET examination.*
- *that the earlier model was better and we should now switch back to the earlier model starting from August 2018.*

Other Observations

- Our experimenting about allotting the dissertation starting from the 3rd Semester has not resulted in any appreciable advantage in terms of time management.

A suggestion to have a one-year dissertation work (combining two papers) is one viable option.

- A lot of time is wasted (?) in teaching BSc-level topics in more than one subjects and particularly in Mathematical Physics.
- Lots of advanced and important topics in Mathematical Physics were not taught due to paucity of time.
- Quantum Mechanics II should be moved to 2nd Sem.
- The paper on Experimental Methods needs to be modulated - the students feel that it does not qualify for a full-fledged paper.
- Despite efforts by several faculty members, the Workshop Practice has continued to become very sloppy.

UG CCS Meeting, 8th Aug, 2020

The UG CCS meeting held online on 8 August 2020 to update the UG CBCS Physics syllabi for Honours and Regular courses adopted the following resolutions.

Resolutions:

1. **SEC:** The syllabi were approved. College may outsource resource persons/ faculty members for teaching. PhD qualification for teaching SEC may be relaxed for certain SECs.
2. **Practical paper of Math. Phys.:** It was resolved that PYTHON must be included in all practical papers of Math. Phys.
3. **Mechanics:** It was resolved that brief introduction to Lagrangian, Hamiltonian and simple problems associated with them must be included in the Mechanics or Classical Mechanics course.
4. **Shifting of modules:** Considering the difficulties that might arise in question paper setting and evaluation process, NO shifting of modules has been approved in the present CCS meeting.
5. **Marks and no. of lectures:** It was resolved that marks in questions papers must appear approximately, if not exactly, in the proportion of number of lectures assigned to various modules of a particular paper. Moderators while moderating a question paper should ensure such distribution of marks.
6. **Reduction of contents:** Practical paper in 1st semester Math. Phys. was realised to be lengthy. However it was resolved that reduction may not be possible as it was already reduced as informed by one of the committee members of that course. It was also realised that Unit IV and Unit V of Statistical Mechanics course (Semester VI) contain some rigorous topics such as Thermodynamic functions of photon gas and White Dwarfs (Chandrasekhar mass limit) which involve advanced calculations and hence reduction may be required. Chairman of the CCS is requested to take the opinion of an expert and make necessary changes accordingly, if needed at all.
7. **Changes in the content of Modern Physics :** Suggestions for modification of Modern Physics and Quantum Mechanics courses, as propose by Prof. K Barua of GU were considered and decided that the Chairman of CCS will take necessary initiative to

arrange a meeting of concerned subcommittees to explore the possibility of proposed changes.

8. The updated UG CBCS syllabi for both major and regular courses were approved with suggestion for above-mentioned modifications.

Dear Colleagues,

Greeting from the Department of Physics, Gauhati University!

I would like to convey my thanks to all of you for your active participation and cooperation in updating the UG Physics syllabi. As you are aware that the process of updating the UG Physics (CBCS) syllabi is not complete yet, it's time for all of us to give yet another effort to make the syllabi more comprehensive. In this regard, the next important step is to prepare the syllabi for various 'Skill Enhancement Courses (SEC)'. This course is an important addition in the new CBCS pattern and is being introduced (by UGC) to help our students to develop a genuine skill while doing their under graduation. Now, while preparing the syllabi for these courses, we have to remember three important things –

(1). In every batch, there are students of various abilities. Some are very bright, some are average and some are below average (those who might not even pass). All may not require the same type of skill enhancement course.

(2). We cannot expect that the resource persons (teachers) as well as the required infrastructure for various SEC are readily available in all the colleges. In such cases, we may have to see the possibility of exploring local resources, both in terms of faculty (resource person) as well as infrastructure. For example, a college may like to invite a computer instructor from a local institute to offer some courses related to IT or an electrical engineer for some other SEC course. These might vary from place to place.

(3). My special request to you would be to explore the possibility of developing a few SEC for those students who might drop out of colleges at UG level. The average number of dropout students at UG level is significant. Even if a student fails in acquiring a Bachelor's degree after her/his three long years of association with the college, she/he should feel that these very important years of her/his life haven't gone in vain. They should rather have a feeling that although they couldn't succeed in obtaining the desired degree, during this period they have at least learned something with which they can manage their bread and butter. How far we would succeed we do not know, but at least we can start thinking in that direction and try to take a small step forward by developing right kind of courses.

All of we know that the idea behind this SEC is to find alternatives for 'job'.

I therefore request all of you to develop SEC according to the availability of your resources, both in terms of manpower and infrastructure, and communicate these at - abhijtdas@gauhati.ac.in keeping me in cc (bb_22@rediffmail.com). GU administration has provided us a small amount for holding a meeting of UG CCS (may be extended one) for updating the the current version of UG syllabi which, we would organize soon.

Thank you so much in anticipation.

Regards -

....

Subject: Re: UG Physics Syllabi - SEC

Dear Simanta,

It would be really helpful if we get all the SEC syllabi before 7th March.
We are aiming to have the next meeting of the UG CBCS syllabus on 14th March 2020.

Best wishes-

Dear Mrs. Borthakur,

Thank you very much for your mail and initiative. The courses you have suggested are fine, but my suggestion would be to consider something more job oriented. For example, with computer we can thing something like Photoshop, Pagemaker, Networking, programing with HLL such as C and C++ etc. (for bright students who might join master and doctoral programs later). These are only suggestive. Please discuss among yourselves and come with some ideas.

Best wishes -

Dear Colleagues,

Greeting from the Department of Physics, Gauhati University!

I would like to convey my thanks to all of you for your active participation and cooperation in updating the UG Physics syllabi. As you are aware that the process of updating the UG Physics (CBCS) syllabi is not complete yet, it's time for all of us to give yet another effort to make the syllabi more comprehensive. In this regard, the next important step is to prepare the syllabi for various 'Skill Enhancement Courses (SEC)'. This course is an important addition in the new CBCS pattern and is being introduced (by UGC) to help our students to develop a genuine skill while doing their under graduation. Now, while preparing the syllabi for these courses, we have to remember three important things –

(1). In every batch, there are students of various abilities. Some are very bright, some are average and some are below average (those who might not even pass). All may not require the same type of skill enhancement course.

(2). We cannot expect that the resource persons (teachers) as well as the required infrastructure for various SEC are readily available in all the colleges. In such cases, we may have to see the possibility of exploring local resources, both in terms of faculty (resource person) as well as infrastructure. For example, a college may like to invite a computer instructor from a local institute to offer some courses related to IT or an electrical engineer for some other SEC course. These might vary from place to place.

(3). My special request to you would be to explore the possibility of developing a few SEC for those students who might drop out of colleges at UG level. The average number of dropout students at UG level is significant. Even if a student fails in acquiring a Bachelor's degree after her/his three long years of association with the college, she/he should feel that these very important years of her/his life haven't gone in vain. They should rather have a feeling that although they couldn't succeed in obtaining the desired degree, during this period they have at least learned something with which they can manage their bread and butter. How far we would succeed we do not know, but at least we can start thinking in that direction and try to take a small step forward by developing right kind of courses.

All of we know that the idea behind this SEC is to find alternatives for 'job'.

I therefore request all of you to develop SEC according to the availability of your resources, both in terms of manpower and infrastructure, and communicate these at – abhijitdas@gauhati.ac.in");" style="color:blue;text-decoration:underline;" >abhijitdas@gauhati.ac.in keeping me in cc (bb_22@rediffmail.com");" style="color:blue;text-decoration:underline;" >bb_22@rediffmail.com). GU administration has provided us a small amount for holding a meeting of UG CCS (may be extended one) for updating the the current version of UG syllabi which, we would organize soon.

Thank you so much in anticipation.

Greetings!

Hope this email finds you in good health along with all your family members. It's needless to mention that we are perhaps passing the most difficult time of our generation. Understanding the gravity of the situation, the UGC has advised us to work from our home only. So, to keep the show going, certain very important works need to be accomplished even in these difficult hours. One such work is updating the UG CBCS syllabi by adding detail SEC courses. With the initiative of Dr. Abhijit Das and your cooperation, we could prepare altogether sixteen detail syllabi for SEC, which I enclosed herewith for your ready reference. The syllabi are not error-free and need further improvement in terms of CO, total no. of credits, etc. I would request you to kindly go through these carefully and put forward your suggestions. The addition of more SEC is welcomed. We do not know when the classes would resume. Notwithstanding, we have to keep our SEC syllabi ready before the start of the next academic session. If things go in our favor, we may like to have a meeting of extended UG-CCS after reopening of the institutes. Otherwise, the process of updating the syllabi has to be completed via online discussions only.

Hope this email finds you in good health along with all your family members. It's needless to mention that we are perhaps passing the most difficult time of our generation. Understanding the gravity of the situation, the UGC has advised us to work from our home only. So, to keep the show going, certain very important works need to be accomplished even in these difficult hours. One such work is updating the UG CBCS syllabi by adding detail SEC courses. With the initiative of Dr. Abhijit Das and your cooperation, we could prepare altogether sixteen detail syllabi for SEC, which I enclosed herewith for your ready reference. The syllabi are not error-free and need further improvement in terms of CO, total no. of credits, etc. I would request you to kindly go through these carefully and put forward your suggestions. The addition of more SEC is welcomed. We do not know when the classes would resume. Notwithstanding, we have to keep our SEC syllabi ready before the start of the next academic session. If things go in our favor, we may like to have a meeting of extended UG-CCS after reopening of the institutes. Otherwise, the process of updating the syllabi has to be completed via online discussions only.

Dear Dr. Devi,

Thank you so much for your mail. Please let me know if the courses you suggested are included in the attachment of my last mail. If not, we'll have to include them so that they appear in the syllabus. Our approach is to keep provision for as many SEC as possible so that every college finds a few of their choice.

Subject: Re: UG Physics Syllabi - SEC

Esteemed Colleagues,

Greetings!

Hope this email finds you in good health along with all your family members. It's needless to mention that we are perhaps passing the most difficult time of our generation. Understanding the gravity of the situation, the UGC has advised us to work from our home only. So, to keep the show going, certain very important works need to be accomplished even in these difficult hours. One such work is updating the UG CBCS syllabi by adding detail SEC courses. With the initiative of Dr. Abhijit Das and your cooperation, we could prepare altogether sixteen detail syllabi for SEC, which I enclosed herewith for your ready reference. The syllabi are not error-free and need further improvement in terms of CO, total no. of credits, etc. I would request you to kindly go through these carefully and put forward your suggestions. The addition of more SEC is welcomed. We do not know when the classes would resume. Notwithstanding, we have to keep our SEC syllabi ready before the start of the next academic session. If things go in our favor, we may like to have a meeting of extended UG-CCS after reopening of the institutes. Otherwise, the process of updating the syllabi has to be completed via online discussions only.

Many email ids of this mailing list are incorrect and are bouncing back. It would be a great help if you forward this mail to your colleagues and

faculty members of various other colleges.

Thank you so much in anticipation.

Take care.

The agenda of the meeting was to discuss on modification on UG CBCS syllabus of Political Science, Gauhati University and to finalise the modified contents for 1st, 2nd, 3rd and 4th semester. The meeting also discussed about the Skill Enhancement Course (SEC) paper for Honours Generic and Regular of UG 4th semester.

At the outset of the meeting, Prof. Akhil Ranjan Dutta, HOD, Department of Political Science, Gauhati University, welcomed all the members and requested everyone to share their opinion regarding modification of UG Political Science syllabus as well as on 4th semester SEC paper. After detail discussion on each and every paper of UG 1st, 2nd, 3rd and 4th semester, and some modifications were being made. Some contents of the existing syllabus were rearranged and clear and pinpointed subheadings were added on for some units without compromising the UGC guidelines. The modifications suggested have been within the UGC mandate of 20%.

The meeting has resolved to place the changes before the appropriate authority for approval. The meeting has also resolved to request the University authority to approve the changes at an early date so as to enable the colleges to implement them in the ongoing 4th semester too.

The meeting ended with a formal vote of thanks by Prof Akhil Ranjan Dutta.

An online meeting of the CCS in collaboration with UG Coordination Committee was called upon by the Department of Political Science, Gauhati University on 30th August, 2021 at 7 p.m. The meeting was held through Google Meet platform. The agenda of the meeting was to discuss on modification on UG CBCS syllabus of Political Science, Gauhati University and to finalise the modified contents for 1st, 2nd, 3rd and 4th semester. The meeting also discussed about the Skill Enhancement Course (SEC) paper for Honours Generic and Regular of UG 4th semester.

At the outset of the meeting, Prof. Akhil Ranjan Dutta, HOD, Department of Political Science, Gauhati University, welcomed all the members and requested everyone to share their opinion regarding modification of UG Political Science syllabus as well as on 4th semester SEC paper. After detail discussion on each and every paper of UG 1st, 2nd, 3rd and 4th semester, and some modifications were being made. Some contents of the existing syllabus were rearranged and clear and pinpointed subheadings were added on for some units without compromising the UGC guidelines. The modifications suggested have been within the UGC mandate of 20%.

The meeting has resolved to place the changes before the appropriate authority for approval. The meeting has also resolved to request the University authority to approve the changes at an early date so as to enable the colleges to implement them in the ongoing 4th semester too.

The meeting ended with a formal vote of thanks by Prof Akhil Ranjan Dutta.
